ANZ-Indeed Australian Job Ads: steady decline

ANZ-Indeed Australian Job Ads declined 3.0% m/m in July, following a downwardly revised 2.7% m/m fall in June. In trend terms, the series was down 2.7% m/m.

While ANZ-Indeed Job Ads has fallen 28.6% from its peak in November 2022, the series is still 13.3% above pre-pandemic levels.

	Seasonally adjusted		
	% m/m	% y/y	% vs 2019 average
ANZ-Indeed Job Ads	-3.0	-20.8	+13.3

See page 4 for [technical details](#)

ANZ Economist, Madeline Dunk: ANZ-Indeed Australian Job Ads recorded its sixth consecutive monthly decline in July, with the series down 16.7% since January. This points to continued cooling in the labour market.

We've also seen the share of employers recruiting fall sharply in June to levels last seen during the east coast 2021 lockdowns, while average hours worked per employed person has declined 30 minutes a week since February 2023. Taken together, there is a risk the [labour market could slow more sharply](#) than we and the RBA are forecasting.

Indeed Senior Economist, Callam Pickering: In July, the decline in ANZ-Indeed Job Ads was once again concentrated in Victoria and New South Wales. Falls in other states were more modest. The nation's two most populous states account for around 86% of the total decline in Job Ads over the past year.

Recent declines in Job Ads have reflected reduced demand in education, food preparation & service and nursing. Over the past three months, Job Ads have fallen for 57% of occupational categories. Among those bucking the national trend, with Job Ads rising, have been physicians & surgeons and banking & finance.

ANZ-Indeed Australian Job Ads declined 3.0% m/m in July

Appendix

Data sources

The internet series counts the average number of job ads carried by each of the sites contributing to the series on the same day of each week in the month indicated. The day (which is not necessarily the same for each site) is selected by the site operator as broadly representative of its activity levels. The data are based on information provided by the operators of the following sites:

- Indeed (au.indeed.com); 2018–ongoing
- Workforce Australia, Department of Employment and Workplace Relations (workforceaustralia.gov.au) and previous iterations; 1999–ongoing
- SEEK (seek.com.au); 1999–2022
- Newspaper job ads; 1975–2018

Historical data going back to 1975 is published [here](#).

Seasonal adjustment and trend

X-11 ARIMA is used for seasonal adjustment and trend estimates. New and revised original monthly data can result in revisions to the seasonal factors for historical estimates.
