ANZ donates \$50,000 to help flood recovery in the Kimberley region

ANZ today announced it will donate \$50,000 to help the Kimberley communities of Derby and Fitzroy Crossing recover from recent flooding in far North Western Australia.

The donation from ANZ will be distributed across the Lord Mayor's Distress Fund, the Leedal Foundation and the Foundation for Indigenous Sustainable Health (FISH).

The Lord Mayor's Distress Fund, which in conjunction with the Western Australian government, is helping in the immediate recovery effort. While the Leedal Foundation is partnering with local organisations to coordinate assistance to people who have been impacted, especially in the Far North of the region.

FISH's vision is for Aboriginal and Torres Strait Islander people to be confident, connected, healthy, have equal opportunities with education, training, employment and life choices and are valued as positive, and healing contributors who lead others to care for each other and for Country. This donation will be critical in helping to deliver children's school packs, teacher's educational resources and reading books for those schools impacted by the recent flooding.
